### Description

When Rick Bebout died June 10, the city and the world lost one smart queer and one committed activist, with a history that included the gay magazine *The Body Politic*, the AIDS Committee of Toronto, the fight to save Union Station and much, much more. Join us for a celebration of who he was and what he did for all of us.

We are collecting written and email tributes to Rick's life, to be on display at the celebration and then added to Rick's 22 archival boxes, presently housed at the Canadian Lesbian and Gay Archives. Send your tributes to [gerald.hannon@sympatico.ca](mailto:gerald.hannon@sympatico.ca). If you have photos and memorabilia, please bring them to share with Rick's family and friends.
